

April 12, 2018

Dear Customer,

We have been informed by our raw material supplier for Fumagilin-B, that they will no longer produce the active ingredient fumagilline dch. Unfortunately, there is no other place in the world to buy this product from.

The production and sale of Fumagilin-B has been the bread and butter for Medivet Pharmaceuticals for many years. We regret to inform you that this development is forcing us to shut down our operations.

Once all our inventories have been sold we will dismantle our facilities; it is expected we will be closed by June 2018.

This is not what I had envisioned for the future of our company. I personally and on behalf of all my staff would like to thank you very much for your support, relationship and business over the last few decades.

All the best,

A handwritten signature in blue ink that reads "Ursula Da Rugna". The signature is written in a cursive style.
